

Highlights

Safe and Secure:

- Fully UL certified and listed
- Three security loops allow entire cart to be secured to a fixed point using a locking cable
- Both upper and lower compartment doors have a separate lock to secure netbooks, equipment and cables. Rugged metal doors further enhance security
- Temperature-controlled compartments
- Safest design for the classroom—students cannot access any cables or cart electronics. Service bay is independently secured by a separate key and lock
- Rubber mats on upper surface and lower shelf ensure stored items stay put

Easy Access:

- Plug and play—no cabling required by the user for set-up or daily use
- Stow-away doors provide convenient access to netbooks from both sides of cart
- Netbooks are easily removed or inserted into docking bays using a single-hand operation—no cables to unplug or connect
- Indicators built into docking bays rapidly identify netbooks that have not been completely docked
- Ethernet switch provides direct connection to netbooks while docked for Wake-on LAN connectivity. Push software to netbooks without removing systems from cart to reimage
- Netbook power bricks and cables store neatly in individual cradles
- Optional wireless router included for un-tethered network connectivity
- Two fixed casters are paired with two swivel casters, providing optimum maneuverability. All casters lock to prevent unwanted movement when parked for access

Ergotron®

Dell™ Mobile Computing Station

Securely transport, deploy, store and charge twenty-four, 10" Latitude™ 2100 Netbook PCs in one cart!

Smart computing power with less effort

Introducing the Dell™ Mobile Computing Station, the first netbook system that charges 24 Latitude™ 2100 Netbook PCs simultaneously from one cart attached to a single standard wall outlet.

Teachers will love its complete plug and play functionality—no cabling required by the user for set-up or daily use. Just connect the cart's power cord to the wall and the Mobile Station is ready for action.

IT will love the cart's ease of deployment and low maintenance. Netbooks are accessible to students, but cables and electronics are independently secured by a separate key and lock. When docked, each netbook can be accessed remotely for group or individual software changes—no more touching each netbook.

Students will love the quick computer access and the undivided attention of their teacher!

First netbook/notebook management solution to be co-designed with the netbook's charging system to utilize best power management. Twenty-four netbooks charge from zero to full in approximately two hours

Small footprint retains same space-saving profile when doors are stowed in either open or closed position

- Charges all netbooks from zero to full in ~ 2 hours
- LED indicators communicate power "on" and max temperature conditions. Charge status can be seen directly on netbooks when docked
- Supports CAT 6, Gigabit and fiber Ethernet communication (with optional Ethernet switch)
- Optional wireless router is tucked inside an external cage beneath the IT compartment, which allows for re-positioning of antennas so signals may transmit freely while preventing easy removal of the unit
- Each netbook docking slot is designed to ensure netbooks are inserted into the cart correctly for charging. Visual markings on the front of dock tab indicate proper seating of netbooks
- Includes custom cables for netbook charging and Ethernet connectivity, providing optimized cable management inside the cart
- Fully UL certified and listed: UL Standard 60950, CAN/CSA – C22.2 no. 60950, and 1667
- System heat is managed by installed fans and an airflow management system, which is controlled by a thermostat.
- Only netbook/notebook cart with custom-designed, rugged dual-wheel casters
- RoHS Compliant

Product Name	Dell Mobile Computing Station
Part Number	Dell 330-4381, Ergotron K000927 (black, carbide silver)
Product Includes	Mobile Computing Station; 25 AC Adapters; four locking casters, two fixed; optional Linksys WRVS4400 Wireless-N Gigabit Security Router with VPN; 10' Ethernet Cable; optional Cisco SR224G, 24 port, 10/100, 2-Port Gigabit Switch + 2 miniGBIC
Shipping Dimensions	41"H x 31"L x 48.5"W (104 x 79 x 124 cm)
Shipping Weight	300 lbs (136 kg)
Unit Dimensions	38.7"H x 40"L x 24"W (98.3 x 101.6 x 61 cm)
Unit Weight	Without netbooks: 230 lbs/104 kg
Weight Capacity	Top Surface: 25 lbs (11.34 kg) Lower Shelf: 25 lbs (11.34 kg)
Temperature Range	Operating: 32° to 86°F (0° to 30°C) Storage: -40° to 149°F (-40° to 65°C)
Power System	120 V~, 12 A, 60 Hz
Compatibility	Twenty-four (24) 10" Latitude™ 2100 Netbook PCs in 3-cell or 6-cell battery configurations
Warranty	Three (3) years mechanical components; one (1) year for electrical components. All third-party components (Ethernet switch, wireless router, power cables, AC adapters) follow warranty defined by their original manufacturer

Product is available exclusively from Dell
